ABOUT ME

Hi I'm Behruz , at 17 years old , born in Tashkent in 2006
I'm doing Frontend work on creating responsive web interfaces
I am proficient in technologies such as Javascript,
HTML, CSS, Node js, React js, Bootstrap , Material UI.
I strive for a high level of experience in web application and website
development and am willing to embrace modern technologies to create
scalable and implement clear web applications. I actively study new
technologies and follow best practices in the field of Frontend development.
